MEMORIAL GRANITE AND MARBLE HEADSTONES

Our range of memorial monuments, gravestones and headstones are made from only the finest natural resources. Carefully selected, our granite, marble, limestone, nabresina and sandstone materials can either be sourced from one of our specialist local quarries or imported from trusted sites around the world such as Carrara in Italy, and sites in India, China, South Africa and Sweden.

Our expert stonemasons have sculpted and inscribed monuments from a variety of different materials in order to evaluate which stones best suit the memorial gravestones and headstones that our team so beautifully produce. Not only can we inform you of the specific qualities that each of our stone materials possess, but we will also make sure to listen to your exact preferences before crafting the perfect memorial to commemorate the life of someone dear to you. From headstones for graves to cremation headstones.

STANDARDS YOU CAN TRUST

At A.ELFES LTD, it is our aim to make the memorial process as easy and stress free as possible for you during this difficult time. Ensuring that the headstones and gravestones we produce are of the highest quality is incredibly important to us, which is why we only source our materials from locations that we have visited, surveyed and approved.

We have worked with many of our quarries for over 60 years because of their dedication to consistently supplying us with beautiful natural stone.

It's this extra level of care that we believe creates truly lasting memorials that will stand the test of time for generations to come.

For more information about the materials we use to craft our range of headstones for graves and gravestones, email: enquires@memorialgroup.co.uk or via our website: www.memorialgroup.co.uk.
